# WINE LOVERS

This is a selection of wines we love, made by small scale producers, working in harmony with the nature surrounding their vineyards.

## WINE PAIRING

3 glasses € 27,00

4 glasses € 36,00

5 glasses € 45,00

7 glasses € 63,00

## ORGANIC WINE

Organic wine is wine made from grapes grown in accordance with principles of organic farming, which excludes the use of artificial chemical fertilizers, pesticides, fungicides and herbicides.

## NATURAL WINE

The natural wine comes from a minimal technological intervention in the land, in the grapes and the wine itself, without the use of chemical additives and man's manipulations.

Is produced in low rather than industrial quantities by an independent producer.

The grapes are harvested by hand with special attention to the integrity of bunches.

## BIO DYNAMIC WINE

Biodynamic is similar to organic farming in that both take place without synthetic chemicals, but biodynamic farming incorporates ideas about a vineyard as an entire ecosystem, and also takes into account things such as astrological influences and lunar cycles.

## SLOW WINE

The Snail, to signal a cellar that has distinguished itself through its interpretation of sensorial, territorial, environmental and personal values in harmony with the Slow Food philosophy.

# BOLLICINE

2022
